

Gemini Advanced – Free Access Guide (India)

This document outlines two legitimate methods to access Google Gemini Advanced (AI Pro) for free in India.

Case 1: Jio × Google Partnership (18 Months Free)

Best for: Users on Jio's 5G network with an active data plan.

Eligibility:

- Age 18 years or above
- Active Jio prepaid plan of Rs. 349 or higher
- Unlimited 5G enabled plan

Offer Value: Free access for 18 months (approximate value: Rs. 35,100).

Activation Steps:

- 1 Open the MyJio app and log in using your eligible Jio number.
- 2 On the Home screen, locate the banner labeled "Google Gemini – 18 Months Free" or "Early Access – Google AI Pro".
- 3 Tap the banner and select "Claim Now" or "Register Interest".
- 4 You will be redirected to a Google activation page. Sign in using your personal Gmail account.
- 5 Complete the on-screen steps to activate Gemini Advanced. Access is enabled instantly.

Important: You must maintain a Rs. 349+ Jio plan for the full 18 months. If your plan expires or is downgraded, Gemini access may be suspended.

Pro Tip for Cursor & Developer Users

After activation, generate a Gemini API key from Google AI Studio using the same Gmail account.

Case 2: Google AI Pro – Student Offer (1 Year Free)

Best for: Actively enrolled college students in India.

Eligibility:

- Age 18 years or above
- Resident of India
- Enrolled in an eligible university or college

Deadline: Apply before January 31, 2026.

Activation Steps:

- 1 Visit the official student offer page using a personal Gmail account.
- 2 Verify student status via the SheerID portal.
- 3 Use either a university email or upload a valid student document.
- 4 Add a payment method (card or UPI). You will be charged Rs. 0 for the first 12 months.
- 5 Click Subscribe to unlock Gemini Advanced and 2 TB cloud storage.
